

HET BHALANI

Rajkot, Gujarat, India

+91 84690 15568 — bhalanihet2006@gmail.com — LinkedIn — GitHub — HuggingFace

Professional Summary

AI Engineer specializing in **Generative AI**, **Large Language Models (LLMs)**, and **Retrieval-Augmented Generation (RAG)**. Experienced in building **AI systems**, **REST APIs**, and **agentic workflows** using LangChain, LangGraph, and FastAPI. Skilled in **LLM fine-tuning (QLoRA)**, **deploying end-to-end ML pipelines**, and **inference**. Strong foundation in machine learning, deep learning, and transformer architectures with hands-on experience delivering production-ready AI applications that solve real-world problems.

Technical Skills

- **Languages:** Python, Java, JavaScript, SQL, C
- **ML / DL Frameworks:** PyTorch, TensorFlow, Scikit-learn, Hugging Face Transformers
- **GenAI / LLM:** LangChain, LangGraph, Groq API, LLM Fine-tuning (QLoRA / GGUF), RAG Systems
- **Web, Cloud & DevOps:** FastAPI, Next.js, PostgreSQL, FAISS, Pinecone, Docker, Git, Linux

Projects

HetGPT – Full-Stack AI Assistant

Dec 2025 – Feb 2026

Python, FastAPI, Next.js, LangChain, QLoRA, GGUF, FAISS, Pinecone

- Built a full-stack AI assistant with a **dual memory system** (short-term context + long-term summarization), **document RAG** (PDF upload, FAISS/Pinecone retrieval), and **tool integrations** for web search, weather, and news.
- Fine-tuned **Qwen3-8B using QLoRA**, quantized to **Q4_K_M GGUF**, and deployed as a live REST API on Hugging Face Spaces via a **llama.cpp Docker backend**; implemented JWT auth and device-level rate limiting.

Lexi – AI Writing Assistant (Chrome Extension)

Feb 2026 – Mar 2026

Python, FastAPI, LangGraph, Groq, Chrome Extension (MV3)

- Built a Chrome extension with a **LangGraph orchestrated FastAPI backend** supporting grammar correction, summarization, explanation, enhancement, tone control (4 tones), and a session-based **iterative rewrite system** (up to 3 rewrites).
- Implemented **multi-language translation across 15+ languages** using MyMemory API; engineered a **Promptify feature**.

CineSense – Movie Review Sentiment Analyzer

Sep 2025

Python, FastAPI, Streamlit, Hugging Face Transformers, Selenium, BeautifulSoup

- Fine-tuned **RoBERTa-base** on IMDb reviews and served inference via a **FastAPI backend**; built an **IMDb review scraper** using Selenium and BeautifulSoup for end-to-end pipeline automation.
- Deployed a **Streamlit app** with Plotly visualizations (sentiment distribution, star ratings, review trends); hosted live on **Hugging Face Spaces**.

Experience

Teaching Assistant – Data Structures & Algorithms

Dec 2024 – May 2025

Darshan University, Rajkot, Gujarat

- Mentored junior students in **Data Structures, Algorithms, and Logic Development** through hands-on lab sessions and one-on-one doubt resolution.

Education

B.Tech in Computer Science and Engineering

Darshan University, Rajkot, Gujarat

Expected May 2027

CGPA: 8.97 / 10.0

Achievements & Additional Information

- My **Neural Network from Scratch** repository on GitHub gained **37 stars and 8 forks**.
- Led a team of 6 in a 24-hour hackathon (Code Arena), developing an **ML-powered finance optimizer** for spending analysis and personalized financial recommendations – under strict time constraints.
